

## MAXHUB X3 Conference Plat Panel

**Standard Line** >>> The Popular Choice

Using infrared technology, MAXHUB X3 standard line provides fluent writing experience. Its multiple size and ultra narrow bezel make it popular.

 Infrared

### > 4K Display

Bigger Display Ratio for Immersive Experience

4K Ultra HD Anti-glare Display

### > Intelligent Writing

Infrared touch technology

1mm Writing Accuracy

Graphic Recognition & Smart Chart

### > Multi-screen Interaction

Cast the screens of your computer, phone and tablets\* onto interactive flat panel, making your presentation vivid and productive.

4 Screen Split\* | Remote Control

### > Remote Collaboration

Brand-new video conferencing solution, one click to start your "face to face" meeting.

8MP Camera\*1 | 8m Distant Sound Pickup | Remote Screen Sharing | Annotation Synchronizing

### > Excellent Product Performance

intel Core i7\* Processor | 16GB ROM | Android 7.0 and Windows 10 Dual OS

\*Operation system requirements are as follows. PC: Windows 7, MacOS 10.10 or above; mobile phone and tablet: Android 5.0, IOS 9.0 or above.

\*At most 4 devices including mobile phone, computers and tablets could cast screens simultaneously after connecting to the hot spot of MAXHUB interactive flat panel.

\*17 processor (16GB ROM) is optional. Please refer to the product sold for the exact configuration.

| Product Specification     |                                                      |
|---------------------------|------------------------------------------------------|
| Display                   |                                                      |
| Size                      | 55/65/75/86 inches                                   |
| Display Ratio             | 16:9                                                 |
| Backlight                 | DLED                                                 |
| Resolution                | 3840 (H) X2160 (V)                                   |
| Viewing Angle             | Horizontal 178°, Vertical 178°                       |
| Touch System              |                                                      |
| Glass Material            | Anti-glare tempered glass                            |
| Touch Technology          | Infrared                                             |
| Touch Point               | 20 points                                            |
| Writing Tools             | Finger + opaque object (≥2mm)                        |
| Touch Accuracy            | 31mm                                                 |
| Camera                    |                                                      |
| Location                  | TopX1                                                |
| Pixels                    | 8 mega pixles                                        |
| Automatic Control         | Automatic white balance, adaptive ambient brightness |
| Lens Distortion           | ≤1%                                                  |
| Face Recognition          | Support                                              |
| Microphone Array          |                                                      |
| Directivity               | Front                                                |
| Pickup Distance           | 8m                                                   |
| Quantity                  | 6                                                    |
| Sampling Frequency        | 16KHz                                                |
| Sampling Rate             | 16bit                                                |
| Automatic Control         | Automatic gain, automatic noise reduction            |
| Echo Cancellation         | Support                                              |
| Auditory Localization     | Support                                              |
| Speaker                   |                                                      |
| Frequency-domain          | 80Hz-20KHz                                           |
| Speaker Quantity          | 3                                                    |
| Stereo                    | Support                                              |
| Operating System          |                                                      |
| CPU                       | Dual A73                                             |
| Dominant Frequency        | 1.2GHz                                               |
| GPU                       | Mali 450*5                                           |
| RAM                       | 2G                                                   |
| ROM                       | 32G                                                  |
| Operating System          | Android 7.0 embedded, Windows10 optional             |
| PC Module                 |                                                      |
| PC                        | Ultra-thin pluggable Intel® Core PC module           |
| CPU                       | Intel® Core i5 / i7 (Optional)                       |
| RAM                       | DDR4 8G / 16G (Optional)                             |
| ROM                       | 128G / 256G (Optional)                               |
| GPU                       | Intel® HD Graphics                                   |
| Enviroment Requirement    |                                                      |
| Power                     | 100-240V~ 50 / 60Hz                                  |
| Altitude                  | Below 5000 meters                                    |
| Standby Power Consumption | ≤0.5W                                                |
