

telehook®

Slim wall mount | Tilt Adjustable TH-3060-UT
 Designed for Displays from 32" to 60" (81 - 153cm)

Universal mounting from support up to 400x600mm

Suits medium weight displays

Up to 20° of adjustable tilt

Enhanced security

This mounting solution is designed to suit the latest range of mid weight flat screens. It features a quality steel construction with a slim profile and a sleek matt black finish. It can be installed on walls in a variety of environments and is easy to set up. The display bracket allows for height and horizontal adjustment during installation as well as tilt and horizontal adjustment post installation. The detachable bracket allows the display to be easily cabled before being lifted and slotted into place. For added security the the bracket can be locked to the wall plate**.
